General Certificate of Secondary Education

Mark Scheme for June 2023

OCR (Oxford Cambridge and RSA) is a leading UK awarding body, providing a wide range of qualifications to meet the needs of candidates of all ages and abilities. OCR qualifications include AS/A Levels, Diplomas, GCSEs, Cambridge Nationals, Cambridge Technicals, Functional Skills, Key Skills, Entry Level qualifications, NVQs and vocational qualifications in areas such as IT, business, languages, teaching/training, administration and secretarial skills.

It is also responsible for developing new specifications to meet national requirements and the needs of students and teachers. OCR is a not-for-profit organisation; any surplus made is invested back into the establishment to help towards the development of qualifications and support, which keep pace with the changing needs of today's society.

This mark scheme is published as an aid to teachers and students, to indicate the requirements of the examination. It shows the basis on which marks were awarded by examiners. It does not indicate the details of the discussions which took place at an examiners' meeting before marking commenced.

All examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes should be read in conjunction with the published question papers and the report on the examination.

© OCR 2023

MARKING INSTRUCTIONS**PREPARATION FOR MARKING
SCORIS**

1. Make sure that you have accessed and completed the relevant training packages for on-screen marking: *scoris assessor Online Training*; *OCR Essential Guide to Marking*.
2. Make sure that you have read and understood the mark scheme and the question paper for this unit. These are posted on the RM Cambridge Assessment Support Portal <http://www.rm.com/support/ca>
3. Log-in to scoris and mark the **required number** of practice responses (“scripts”) and the **number of required** standardisation responses.

YOU MUST MARK 10 PRACTICE AND 10 STANDARDISATION RESPONSES BEFORE YOU CAN BE APPROVED TO MARK LIVE SCRIPTS.

MARKING

1. Mark strictly to the mark scheme.
2. Marks awarded must relate directly to the marking criteria.
3. The schedule of dates is very important. It is essential that you meet the scoris 50% and 100% (traditional 40% Batch 1 and 100% Batch 2) deadlines. If you experience problems, you must contact your Team Leader (Supervisor) without delay.
4. If you are in any doubt about applying the mark scheme, consult your Team Leader by telephone or the scoris messaging system, or by email.
5. **Crossed Out Responses**
Where a candidate has crossed out a response and provided a clear alternative then the crossed out response is not marked. Where no alternative response has been provided, examiners may give candidates the benefit of the doubt and mark the crossed out response where legible.

Rubric Error Responses – Optional Questions

Where candidates have a choice of question across a whole paper or a whole section and have provided more answers than required, then all responses are marked and the highest mark allowable within the rubric is given. Enter a mark for each question answered into RM assessor, which will select the highest mark from those awarded. *(The underlying assumption is that the candidate has penalised themselves by attempting more questions than necessary in the time allowed.)*

Multiple Choice Question Responses

J277/01

Mark Scheme

When a multiple choice question has only a single, correct response and a candidate provides two responses (even if one of these responses is correct), then no mark should be awarded (as it is not possible to determine which was the first response selected by the candidate).

When a question requires candidates to select more than one option/multiple options, then local marking arrangements need to ensure consistency of approach.

Contradictory Responses

When a candidate provides contradictory responses, then no mark should be awarded, even if one of the answers is correct.

Short Answer Questions (requiring only a list by way of a response, usually worth only **one mark per response**)

Where candidates are required to provide a set number of short answer responses then only the set number of responses should be marked. The response space should be marked from left to right on each line and then line by line until the required number of responses have been considered. The remaining responses should not then be marked. Examiners will have to apply judgement as to whether a 'second response' on a line is a development of the 'first response', rather than a separate, discrete response. *(The underlying assumption is that the candidate is attempting to hedge their bets and therefore getting undue benefit rather than engaging with the question and giving the most relevant/correct responses.)*

Short Answer Questions (requiring a more developed response, worth **two or more marks**)

If the candidates are required to provide a description of, say, three items or factors and four items or factors are provided, then mark on a similar basis – that is downwards (as it is unlikely in this situation that a candidate will provide more than one response in each section of the response space.)

Longer Answer Questions (requiring a developed response)

Where candidates have provided two (or more) responses to a medium or high tariff question which only required a single (developed) response and not crossed out the first response, then only the first response should be marked. Examiners will need to apply professional judgement as to whether the second (or a subsequent) response is a 'new start' or simply a poorly expressed continuation of the first response.

6. Always check the pages (and additional objects if present) at the end of the response in case any answers have been continued there. If the candidate has continued an answer there then add a tick to confirm that the work has been seen.

7. Award No Response (NR) if:

- there is nothing written in the answer space or no valid attempt at an answer (e.g. "I don't know")

Award Zero '0' if:

- there is an attempt at an answer that is not worthy of credit (this includes text and symbols).

Team Leaders must confirm the correct use of the NR button with their markers before live marking commences and should check this when reviewing scripts.

J277/01

Mark Scheme

8. The scoris **comments box** is used by your team leader to explain the marking of the practice responses. Please refer to these comments when checking your practice responses. **Do not use the comments box for any other reason.**
If you have any questions or comments for your team leader, use the phone, the scoris messaging system, or e-mail.
9. Assistant Examiners will send a brief report on the performance of candidates to their Team Leader (Supervisor) via email by the end of the marking period. The report should contain notes on particular strengths displayed as well as common errors or weaknesses. Constructive criticism of the question paper/mark scheme is also appreciated.
10. For answers marked by levels of response: Not applicable in F501
- To determine the level** – start at the highest level and work down until you reach the level that matches the answer
 - To determine the mark within the level**, consider the following:

Descriptor	Award mark
On the borderline of this level and the one below	At bottom of level
Just enough achievement on balance for this level	Above bottom and either below middle or at middle of level (depending on number of marks available)
Meets the criteria but with some slight inconsistency	Above middle and either below top of level or at middle of level (depending on number of marks available)
Consistently meets the criteria for this level	At top of level

11. Annotations

Annotation	Meaning
	Omission mark
	Benefit of doubt (must be accompanied with a tick)
	Cross
	Follow through (must be accompanied with a tick)
	Not answered question
	Benefit of doubt not given
	Repeat
	Tick
	Too vague
	Blank pages, pages with no annotation, no attempt to answer the question, page seen on QER
	QER Level 1 mark awarded
	QER Level 2 mark awarded
	QER Level 3 mark awarded

12. Subject Specific Marking Instructions**Mark scheme conventions:**

- Each mark point is worth 1 mark unless stated otherwise
- Each mark point can only be awarded once
- A word/phrase that is underlined needs to be exact in the answer to award the mark point
- A word/phrase that is **bold** needs that concept to be in the answer (but can be given in multiple ways) to award the mark point
- 3 dots at the end of one mark point and at the start of the next mark point mean that the second mark point cannot be awarded without the first being awarded, unless the mark scheme states otherwise (for example a reasonable attempt with some inaccuracies)
- 3 dots at the start of a mark point, without 3 dots at the end of the mark point above, means the sentence carries on and there is no dependency
- Any text in brackets is not required to gain the mark point
- Single / means alternative word
- Double // means an alternative statement that is acceptable for the same mark point
- Enlarged font is used for visibility reasons only

Annotating scripts:

- Blank pages at the start of the script need SEEN annotation
- Any questions answered elsewhere (e.g. on the first blank pages, separately on the page) need to be linked within RM Assessor and annotated with ticks/crosses/SEEN as appropriate
- 1 tick for every mark awarded, if a question is given 3 marks there must be 3 ticks (apart from QER question)
- A BOD or FT annotation needs to be accompanied by a tick
- QER question 6 – One annotation from: L1, L2 or L3, according to the level awarded, the page not annotated with the level needs a SEEN annotation. Do not include any ticks, crosses or other annotations on this question – other than SEEN and one from: L1, L2 or L3
- Any answers with no candidate response need a SEEN annotation and NR entered as the mark.
- Any questions where the candidate has not attempted the question e.g. answered 'don't know' need a SEEN annotation and NR entered as the mark.
- All questions must be annotated throughout the marking process.

Question			Answer	Mark	Guidance															
1	a		1 mark for: <ul style="list-style-type: none">Binary is used because computers are made of switches that can only be on or off (box 3)	1	Accept cross or other indication as long as clear which one they intend. 2+ ticks = 0 marks															
1	b		1 mark for each completed box <table border="1"><thead><tr><th>Denary</th><th>8-bit binary</th><th>Hexadecimal</th></tr></thead><tbody><tr><td>7</td><td>00000111</td><td>7</td></tr><tr><td>49</td><td>00110001</td><td>31</td></tr><tr><td>102</td><td>01100110</td><td>66</td></tr><tr><td>244</td><td>11110100</td><td>F4</td></tr></tbody></table>	Denary	8-bit binary	Hexadecimal	7	00000111	7	49	00110001	31	102	01100110	66	244	11110100	F4	4	Must be 8-bits. Ignore case in hex. Ignore calculations in answer box.
Denary	8-bit binary	Hexadecimal																		
7	00000111	7																		
49	00110001	31																		
102	01100110	66																		
244	11110100	F4																		
1	c		1 mark for: <ul style="list-style-type: none">200MB (box 3)	1	Accept cross or other indication as long as clear which one they intend. 2+ ticks = 0 marks															
1	d		1 mark for both boxes: <ul style="list-style-type: none">4 500 000 bytes (box 1)4.5 MB (box 3)	1	Accept cross or other indication as long as clear which one they intend. 1/3+ ticks = 0 marks															
1	e		1 mark each: <ul style="list-style-type: none">Answer (1) 0 0 0 0 1 1 1 1Correct working e.g. carrying (might be above, below etc.)<div>0 1 1 1 0 0 0 1 1 0 0 1 1 1 1 0 0 0 0 0 1 1 1 1 carries: 1 1 1</div>	2	Do not award marking for converting each number to denary and adding them together. If the carries are present, and converting to denary is present – award the carries (conversion can be used to check their answer). Marks are not dependent.

Question			Answer	Mark	Guidance										
2	a	i	1 mark for each protocol	4	Mark first answer in each box. Allow full name to be written e.g. file transfer (protocol). Accept POP3 or any other version										
			<table><thead><tr><th>Task</th><th>Protocol</th></tr></thead><tbody><tr><td>Requesting a webpage from a web server</td><td>HTTP // HTTPS</td></tr><tr><td>Entering a username and password to access their bank account</td><td>HTTPS</td></tr><tr><td>Downloading a text document from a web server</td><td>FTP // HTTP // HTTPS</td></tr><tr><td>Checking for new emails in their inbox</td><td>IMAP // POP</td></tr></tbody></table>			Task	Protocol	Requesting a webpage from a web server	HTTP // HTTPS	Entering a username and password to access their bank account	HTTPS	Downloading a text document from a web server	FTP // HTTP // HTTPS	Checking for new emails in their inbox	IMAP // POP
			Task			Protocol									
			Requesting a webpage from a web server			HTTP // HTTPS									
			Entering a username and password to access their bank account			HTTPS									
			Downloading a text document from a web server			FTP // HTTP // HTTPS									
Checking for new emails in their inbox	IMAP // POP														
2	a	ii	1 mark each to max 2: <ul style="list-style-type: none">Each layer is independent // layers are not reliant on other layersOne layer can be changed without affecting the others // a layer can function without needing/changing/impacting any other layer // self-containedSeparates tasks so they can be developed independentlyA developer can focus on only one layer // developer can specialiseAllows for standards for individual tasks/layers to be developed // for compatibilityManufacturers can develop hardware to fit into one particular layerTo group together similar protocols	2	Max 1 in each answer space										
2	b	i	1 mark from: <ul style="list-style-type: none">Uses dedicated/own/internal hardware // no external/third party hardware/infrastructure // computers use MAC addresses to communicate within the LAN	1											

J277/01

Mark Scheme

2	b	ii	1 mark each to max 4: e.g. <ul style="list-style-type: none"> Allows more devices to connectfor example televisions, mobile phones Easy to connect (devices) // Easier to setup (wireless connections) // By example e.g. easier for guests to connect their devices Home is likely small area ... so short distance wireless is sufficient Devices can move around // can use devices in different areas // can connect from anywhere in the house // can use where wires don't reach // can access from a larger area (than wired) ... by example e.g. student is using a laptop so does not need to be tied to one place // by example e.g. they don't have to disconnect before moving // e.g. they can stay connected whilst moving Cheaper to purchase/install/setup for new devices // no cost for (new/replacement) wires/hardware ...because no additional/fewer wires are needed Fewer trip hazards from trailing wires // reduce risk of damage to cables // fewer cables to damage More compatible // some devices only have wireless connections 	4	Easier/cheaper on their own is NE
2	b	iii	1 mark each to max 2: e.g. <ul style="list-style-type: none"> Prone to interference // by example Limited range of signal Slower rate of transmission // less bandwidth // reduced network performance// increased latency // BOD slower connection // more users reduces rate of transmission / bandwidth /performance etc. Increased risk of security concerns // by example e.g. A hacker could connect to the wireless connection Less stable connection Higher chance of collisions // Higher error rate 	2	MP3 needs to say what is slower / decreased e.g. It's slower, is NE Mark first drawback in each answer space. Less reliable is TV on its own for MP 5

Question			Answer	Mark	Guidance												
3	a		<p>1 mark for each completed space</p> <p>A character set stores all of the characters that the computer can represent. Each character is given a unique/different binary code. Lower-case and upper-case letters in a character set are given unique/different/similar binary codes. One example of a character set is ASCII. This character set uses 8 bits for each character. If the ASCII value for the character 'F' is 70 Then the ASCII value for the character "L" is 76.</p>	5	Award the same term used multiple times if used correctly												
3	b	i	<p>1 mark:</p> <ul style="list-style-type: none">Data about the data/image/file	1	<p>Question is for a definition, not an example. If the definition is not clear, for example details about the image, information about the image – this is NE, but read the example to see if it clarifies. For example: 'Information about the image, such as the number of pixels' give a BOD.</p> <p>Data could be properties/characteristics.</p>												
3	b	ii	<p>1 mark each:</p> <ul style="list-style-type: none">First row: red red purpleRemainder correct and in correct order <table><tr><td>red</td><td>red</td><td>purple</td></tr><tr><td>blue</td><td>green</td><td>blue</td></tr><tr><td>purple</td><td>purple</td><td>purple</td></tr><tr><td>red</td><td>green</td><td>blue</td></tr></table>	red	red	purple	blue	green	blue	purple	purple	purple	red	green	blue	2	<p>Ignore case/spelling as long as legible.</p> <p>If a candidate has completed the table in the incorrect layout e.g. right to left, or bottom to top, then award MP2 as a FT if they have done it all correctly.</p>
red	red	purple															
blue	green	blue															
purple	purple	purple															
red	green	blue															
3	b	iii	16	1	Accept any calculation that equates to 16 i.e. 2 ⁴												

3	b	iv	<p>1 mark each to max 2:</p> <ul style="list-style-type: none"> The quality of the image can be improved The file size will increase // takes up more storage space // image has/requires/takes up more data The number of colours that can be represented/used will increase // BOD more colourful 	2	<p>Do not award higher resolution, image size increases, clearer image (NBOD) more detailed image (NBOD).</p> <p>Closer to original is NE on its own because there is not an original image in this context.</p> <p>Mark first answer in each answer space.</p>
3	c	i	<p>1 mark for lossless</p> <p>1 mark each to max 2 for justification: e.g.</p> <ul style="list-style-type: none"> Lossless will not remove any data // No data is lost with lossless // File/data can be fully reconstructed back to the original Text files require all data to open/be used/work // text files will not work if any data is lost // lossy cannot (usually) be used on text files // none of the required characters / words / spaces / case / formatting / information would be lost // the text will remain accurate // the text will not have changed meaning // the text will still make sense 	3	<p>Do not award an example of lossless for 1st mark (e.g. RLE), but FT for justification.</p> <p>Do not FT for lossy.</p> <p>Accept reverse for answers e.g. Lossy will remove data.</p> <p>If compression type is missing, read justification and if clearly stated which type is used then award justification.</p> <p>MP1 requires reference to the data (or equivalent) not information. MP2 requires reference to the text file context and information is allowed.</p> <p>If not valid compression – 0 marks.</p>

J277/01

Mark Scheme

3	c	ii	<p>1 mark for lossy</p> <p>1 mark each to max 2 for justification e.g.:</p> <ul style="list-style-type: none"> Will reduce the file size more/significantly (than lossless) Image will only lose quality // changes may not be noticed by the user // remove unnoticeable/unnecessary detail/content 	3	<p>Do not award an example of lossy for 1st mark (e.g. reduce resolution), but FT justification.</p> <p>Do not award lossless but FT for justification for lossless: e.g.</p> <ul style="list-style-type: none"> Quality/detail of the image can be retained No data will be lost (permanently) File size may still be a substantial reduction <p>If compression type is missing, read justification and if clearly stated which type is used then award justification.</p> <p>Do not award how the file can be compressed e.g. reduce number of colours – unless they also state that this change will not be noticed.</p> <p>MP1 it compresses the file more is NE – compression is in the question, the candidate needs to explain what this means.</p> <p>If not valid compression – 0 marks.</p>

Question			Answer	Mark	Guidance
7			<p>1 mark for example: e.g.</p> <ul style="list-style-type: none"> • Auto lights • Auto window wipers • Sat nav // GPS • Airconditioning // climate control • Radio/entertainment/infotainment system/media system • Lane assist • Engine management system • Auto-park • Cruise control • Auto-brake • Follow-me • Dashcam <p>1 mark each to max 2 for explanation.</p> <ul style="list-style-type: none"> • Limited functions // by example e.g. the system only checks the light and turns lights on/off • Dedicated microprocessor // by example e.g. there is a microprocessor that is only checking the lights • Hard to change function // by example e.g. the user cannot make the light system do any other role 	3	<p>Allow anything that could be reasonably within a car. If example is not clear if it's an embedded system, read explanation for justification e.g. hazard lights – could be embedded if they are activated automatically when the car crashes. Award the example in the explanation if this occurs.</p> <p>If justification is generic features of an embedded system max 1 for explanation.</p> <p>Do not award 'built into the car/larger machine' because this is in the question.</p>

Need to get in touch?

UNIVERSITY PRESS & ASSESSMENT

OCR is part of Cambridge University Press & Assessment, a department of the University of Cambridge.

For staff training purposes and as part of our quality assurance programme your call may be recorded or monitored. © OCR 2023 Oxford Cambridge and RSA Examinations is a Company Limited by Guarantee. Registered in England. Registered office The Triangle Building, Shaftesbury Road, Cambridge, CB2 8EA.

Registered company number 3484466. OCR is an exempt charity.

OCR operates academic and vocational qualifications regulated by Ofqual, Qualifications Wales and CCEA as listed in their qualifications registers including A Levels, GCSEs, Cambridge Technicals and Cambridge Nationals.

OCR provides resources to help you deliver our qualifications. These resources do not represent any particular teaching method we expect you to use. We update our resources regularly and aim to make sure content is accurate but please check the OCR website so that you have the most up-to-date version. OCR cannot be held responsible for any errors or omissions in these resources.

Though we make every effort to check our resources, there may be contradictions between published support and the specification, so it is important that you always use information in the latest specification. We indicate any specification changes within the document itself, change the version number and provide a summary of the changes. If you do notice a discrepancy between the specification and a resource, please [contact us](#).

Whether you already offer OCR qualifications, are new to OCR or are thinking about switching, you can request more information using our [Expression of Interest form](#).

Please [get in touch](#) if you want to discuss the accessibility of resources we offer to support you in delivering our qualifications.
